

Go Bounce Play – Method Statement

Activity – Spider Mountain

Activity <i>List the task required to perform the activity in the sequence carried out</i>	Hazards <i>Against each task list the hazards that could cause injury when the task is performed</i>	Risk Control Measures <i>List the control measures required to eliminate or minimize the risk of injury arising from the identified hazard</i>	What is the rate of Risk? <i>(Rate risk as Low, Medium or High)</i>	Who is responsible? <i>Write the position of the person who is responsible for ownership of implementing the control measure</i>
Check the weather conditions before travelling to Event Site	<ul style="list-style-type: none"> • Rain • Fog • Heat 	Check weather reports for journey and event location before departure	LOW	DRIVER
Check route directions for possible very low bridges and narrow lanes	<ul style="list-style-type: none"> • Height restriction by bridge or other • Narrow Lanes which it would be difficult to turn vehicle and trailer 	Check route by map before departing for very low bridges and narrow lanes	LOW	DRIVER
Moving 4x4 and Spider Mountain Trailer on Event Site	<ul style="list-style-type: none"> • Collision with other vehicles or pedestrians • Driving into area with a very low height restriction or narrow lane 	<ul style="list-style-type: none"> • Enter Event Area with hazard lights flashing and a speed no more than walking pace • Walk by foot through the projected entrance and roadway looking for issues and obstacles on route 	LOW/MED	DRIVER
Hazards with potential Event Site whilst installing our equipment	<ul style="list-style-type: none"> • High traffic area for vehicles • Pedestrians wandering into work area • Rough terrain • Overhead branches 	<ul style="list-style-type: none"> • Inspect Site before work commences • Look for possible hazards such as overhanging branches. • Ensure terrain is of a suitable nature to start work on. If not then notify organisers immediately • Cordoned off site area so that Passersby cannot enter the restricted area 	LOW/MED	Go Bounce Play Attraction Operator

Activity <i>List the task required to perform the activity in the sequence carried out</i>	Hazards <i>Against each task list the hazards that could cause injury when the task is performed</i>	Risk Control Measures <i>List the control measures required to eliminate or minimize the risk of injury arising from the identified hazard</i>	What is the rate of Risk? <i>(Rate risk as Low, Medium or High)</i>	Who is responsible? <i>Write the position of the person who is responsible for ownership of implementing the control measure</i>
Check for any overhead Electric or Telephone Lines as well as underground service	<ul style="list-style-type: none"> Possible electrocution from overhead Electricity Supply Damage to pipes, telephone lines which could result in claims 	<ul style="list-style-type: none"> Inspect Site before any work commences Ensure you know where there are any overhead lines If you have any concerns then these must be addressed with the Event HSE Manager and your superior 	LOW/MED	Go Bounce Play Attraction Operator
Installing & setting up the Spider Mountain	<ul style="list-style-type: none"> Trailer moving Stability of Spider Mountain Other Site users walking into work area 	<ul style="list-style-type: none"> Ensure handbrake is on Ensure all three stabilisers are in place Ensure work area is cordoned off and there is no one in the area before installing the Spider Mountain 	LOW/MED	Go Bounce Play Attraction Operator
Running Equipment at event	<ul style="list-style-type: none"> General Public tripping or creating a hazard next to Spider Mountain Users acting in a dangerous manner on the equipment Abusive or aggressive members of the Public Use of equipment Unsuitable members of Public trying to enter equipment (under height or overweight) 	<ul style="list-style-type: none"> Each morning carry out a check to ensure there are no trip hazards. Erect barrier between the public and the attraction. Display board which has safety warnings and restrictions Ensure you know the procedure on site for notifying the organisers of any unruly behaviour 	LOW/MED	Go Bounce Play Attraction Operator

Activity <i>List the task required to perform the activity in the sequence carried out</i>	Hazards <i>Against each task list the hazards that could cause injury when the task is performed</i>	Risk Control Measures <i>List the control measures required to eliminate or minimize the risk of injury arising from the identified hazard</i>	What is the rate of Risk? <i>(Rate risk as Low, Medium or High)</i>	Who is responsible? <i>Write the position of the person who is responsible for ownership of implementing the control measure</i>
Storage over night	<ul style="list-style-type: none"> Injury caused to public accessing equipment overnight Theft 	<ul style="list-style-type: none"> Spider Mountain to be stored in down position on trailer and a large tarpaulin secured over it Anti Theft devices fitted 	MED	Go Bounce Play Attraction Operator
Disassembling after the event	<ul style="list-style-type: none"> Trip hazards Use of equipment Tripping over the equipment 	<ul style="list-style-type: none"> Stow away parts as soon as disassembled Follow Operators Manual Wear Hi-Viz Vest 	LOW	Go Bounce Play Attraction Operator
Disposal of Matter	<ul style="list-style-type: none"> Cardboard General Rubbish 	<ul style="list-style-type: none"> Locate nearest Event supplied bin Ensure you are aware of any recycling bins and therefore separation of rubbish that may be required 	LOW	Go Bounce Play Attraction Operator
Driving Van and Spider Mountain off Event Site	<ul style="list-style-type: none"> Collision with other vehicles or pedestrians Driving into area with a very low height restriction or narrow lane 	<ul style="list-style-type: none"> Leave Event Area with hazard lights flashing and a speed no more than walking pace Walk by foot through the projected departure and roadway looking for issues and obstacles on route. Wear Hi- Viz Vest 	LOW/MED	Go Bounce Play Attraction Operator

Calculation of Risk Evaluation

Severity (S)

Severity of risk is judged by evaluating the effects of the hazard if the risk occurs.
This is evaluated as Minor = 1, Major = 2, Serious = 3

Risk Likelihood (L)

The likelihood of the harm occurring is evaluated on the following basis
Unlikely = 1, Possible = 2, Likely = 3

Overall Risk

Overall Risk is calculated by multiplying the figure for Severity (S) x Likelihood (L). The figure calculated is related to the rate of risk as follows:

1 – 3 = Low 4-6 = Medium 7-9 = High
